

Water & Waste Infrastructure

Proven solutions - one building to entire complexes.

Easi-Set and Easi-Span Buildings are ideally suited for a multitude of uses in water and waste water facilities. Our licensed producers have worked all across North America installing single buildings, as well as working on design build teams to complete entire complexes. Our buildings can be customized to exacting specifications and to accommodate large equipment, tanks, and piping. And these versatile buildings can even be installed around existing equipment. The security and durability of these precast concrete buildings makes them ideal for remote and unattended locations. These buildings are weather-tight and can be placed on piers for flood prone areas.

Pump Stations • Well Houses • Lift Stations • Headworks • Belt Filter Press • Blowers • SCADA • Boiler • Solids Processing
Reverse Osmosis Water Treatment • Meter Pit • Methanol & Chemical Storage • HazMat Containment • Generator Buildings
Operations and Control Buildings • Restrooms • Labs • Offices • Maintenance Buildings • Equipment Shelters • Storage & more

Pre-Engineered • Minimal Site Preparation • Delivered To Site Ready To Use • Maintenance Free • Durable • Sustainable

MANUFACTURED throughout the USA & Canada by Licensed Producers. AVAILABLE LOCALLY FROM:
