Rosedale Products, Inc. is a leading technology developer in the field of liquid filtration systems and waste minimization products for customers around the world. With more than 50 years of experience, Rosedale offers an exceptional product line that includes high-performance filtration solutions for multiple industries. Rosedale technicians help customers find the best, most cost-effective approaches to their filtration needs.

Rosedale's product line sets the industry standard in versatility and reliability and includes bag and cartridge filters, basket strainers, automatic back washing filters, filter cartridges, and many special application products. Together with ongoing consulting, troubleshooting, and support from our team of in-house experts, Rosedale provides comprehensive solutions for every critical industry filtration need. Rosedale manufactures industrial filtration products for virtually any industry where liquid and gas flows are present.

We have a vast product line that suits many needs, as well as the flexibility to customize standard products. Our sales staff has knowledge of many industrial practices, giving customers the confidence that their filter solution is the best available for their specific need. Our most popular products are bag filters, pleated cartridge filters, and basket strainers.

Innovation + Expertise

WE'RE COMMITTED TO YOUR VISION.

- High-Flow Housings
- Single/Multi-Bag Housings
- Polypropylene Housings

- Indicating Filter
- Centrifugal Separators
- Backwashing Systems

- Coolant Filter Systems
- High Capacity Elements
- Filter Bags

Engineering.

Standard-to-custom designed product line offering.

- Engineered-to-order housings or systems to satisfy customer requirements.
- Capability to supply necessary documentation that engineering firms require.
- Fully ASME Code Stamp facility. Non-Code or Canadian Register also available.
- "R" Stamp for Certified Repairs.
- NSF 61 Approved.
- ISO 9001 Certified.

"We are constantly challenged to design 'outside-the-box' components and systems that move the needle within the filtration industry. In fact, many of our most innovative product offerings are the result of requests from customers to come up with customized solutions for their specific issues."

IGNACIO PAZ
Design Engineer
Rosedale Products, Inc

Manufacturing.

Automated and hand-welded designs.

- We have the equipment and capacity to increase production on demand.
- Automated equipment.
- Crane capacity to handle 10 ton or vessels to 6 feet in diameter.
- State-of-the-art electropolishing center.
- In-house machining center.

“From housings to strainer baskets to bag and filter cartridges, everything is built to spec using durable materials and meticulous construction techniques – always with an eye toward maximizing product lifecycle while minimizing maintenance and labor costs.”

STEVE CANNAERT
Welding Engineer
Rosedale Products, Inc

Final Assembly.

The highest standard of quality for all designs.

- Quality control check list administered on every order.
- Updated paint and drying facility.
- Superior packaging, including bag of desiccant, flange covers, plugs on connections, bolted to a wood base or skid, boxed if appropriate.

Inventory & Delivery.

Engineered-to-order and delivered on time.

- We stock over 600 Model 4, 6, 8 bag filters with minimum order quantity and reorder points.
- Several Multi-bag units are in stock.
- Small cartridge housings in stock.
- We stock over 10,000 filter bags in Ann Arbor and over 50,000 at our Houston location.
- Engineered-to-order housings are always expedited for immediate delivery.

“At Rosedale, we stand behind the products we sell to offer ongoing technical support. Our customers appreciate our passionate commitment to helping them achieve the best results for their unique situations.”
